

TRUST RAM

- Greater Flexibility
- Reduced Bending Radius
- Increased Strength
- Optimal Durability
- 15 Year Warranty

TO DO IT BETTER

RAMFLEX has been developed to ensure that the materials that come into contact with water will not cause health risks and all materials comply with the DWD (Drinking Water Directive) for organoleptic, chemical and bacteriological parameters.

F&F RAMFLEX CONNECTOR HOSES

200mm	RPCFF200
250mm	RPCFF250
300mm	RPCFF300
350mm	RPCFF350
400mm	RPCFF400
450mm	RPCFF450
600mm	RPCFF600
900mm	RPCFF900
1000mm	RPCFF1000
1500mm	RPCFF1500
2000mm	RPCFF2000

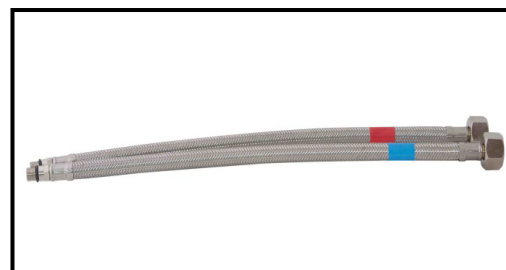

F&F RAMFLEX CONNECTOR HOSES with ELBOW

150mm	RPCEFF150
200mm	RPCEFF200
250mm	RPCEFF250
300mm	RPCEFF300
350mm	RPCEFF350
400mm	RPCEFF400
450mm	RPCEFF450
600mm	RPCEFF600

RAMFLEX MIXER CONNECTOR HOSES

M10 TO 1/2" BSP - 360mm COLD	RPCTAILFC
M10 TO 1/2" BSP - 360mm HOT	RPCTAILFH
M10 TO 1/2" BSP - 500mm	RPCTAILFR

M&F RAMFLEX CONNECTOR HOSES

150mm	RPCMF150
250mm	RPCMF250
300mm	RPCMF300
350mm	RPCMF350
400mm	RPCMF400
450mm	RPCMF450
600mm	RPCMF600
900mm	RPCMF900
1000mm	RPCMF1000
1500mm	RPCMF1500
2000mm	RPCMF2000

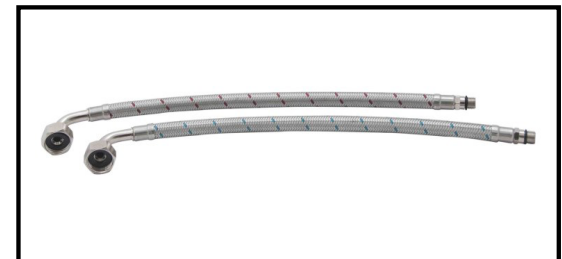

M&F RAMFLEX CONNECTOR HOSES with ELBOW

150mm	RPCEMF150
-------	-----------

RAMFLEX MIXER CONNECTOR HOSES

M10 TO ½" BSP - 360mm COLD	RPCTAILFC
M10 TO ½" BSP - 360mm HOT	RPCTAILFH
M10 TO ½" BSP - 500mm	RPCTAILFR

Antibacterial Properties

The absence of oil and plasticizers in the extrusion process of Thermoplastic vulcanizate (TPE) eliminates the migration of nonmetallic substances into water. This makes it as pure as silicone and assures full compliance with the new European Water Directive (DW 98/83/EC) while retaining the properties and flexibility of thermoplastics.

Chlorine and Chloramine Resistance

In order to comply with the guidelines set out by the National Health and Medical Research Council (NHM-RC) each state in Australia chlorinates their water with a mixture of either chlorine gas, powder, or tablets; or more recently Chloramine.

The effect this has on the rubber or elastomers used in flexible connectors is the significant deterioration of their physical properties such as dense surface cracking and severe and rapid loss of elasticity and tensile strength resulting in their degradation and failure. This damage is accelerated as the temperature increases. The RAMFLEX TPE liner is the best option when it comes to Chlorine and Chloramine resistance as it will not generate surface flaking, dimpling, or shredding thus providing a solution which will stand the test of time.
